

CAPABILITIES STATEMENT

TECH BUILDERS CONSULTING LLC

Enterprise IT Modernization • Program Delivery • Public-Sector Technical Services

COMPANY NARRATIVE

Tech Builders Consulting LLC (TBC) provides senior-led enterprise IT program delivery, modernization, data migration, infrastructure, and production support services for federal and public-sector environments. TBC can support prime contractors with accountable subcontract delivery, clearable resources, and rapid-response technical capacity.

COMPANY DATA

UEI: CF2KWEKPERQ8

CAGE: 7T0X5

Status: SBA Certified WOSB and EDWOSB

Primary NAICS: 541512

Additional NAICS: 541511, 541519, 541611, 518210, 541990

Headquarters: Sewell, NJ

Email: info@techbuildersconsulting.com

EXPERIENCE

U.S. Department of Veterans Affairs (via Merlin International): Directed Enterprise Encryption Key Management (EEKMS) fixed-price SOW; deployed 200+ physical security appliances under strict federal ATO mandates. **Total Value: \$197,600.**

U.S. Department of Veterans Affairs (via SalientCRGT): Led Virtual VA / ECM modernization, migrating legacy applications from Image Services to FileNet P8 frameworks. **Total Value: \$428,440.**

U.S. Department of Veterans Affairs (via Gritter Francona / Booz Allen): Managed Virtual VA repository modernization, cloud migration, and data verification tracks. **Total Value: \$218,310.**

U.S. Department of Veterans Affairs (via TISTA Science & Technology): Provided senior infrastructure, database architecture, and agile project management support. **Total Value: \$140,877.**

PRIME PARTNER VALUE PROOF

500M+ records migrated • **\$985,227** federal subcontract performance • **30+** staff supported • **24/7** ITIL/MIM operations

Next step: Send TBC the SOW gap, staffing need, or task-order requirement for a targeted capability response, role slate, or fixed-price quote.

PAST EXPERIENCE LINKAGE

VA Enterprise Encryption & ECM

Merlin International fixed-price SOW and Salient/SalientCRGT engagements support TBC's demonstrated performance in enterprise security, FileNet/ECM modernization, document conversion, migration, and data verification.

VA Virtual VA Modernization

Gritter Francona/Booz Allen and TISTA engagements support TBC's proven performance in Virtual VA project leadership, repository modernization, infrastructure, database, AWS, migration, and program execution.

CORE COMPETENCIES

- **Program & PMO Delivery**
PMP-led governance, risk, schedule and executive reporting
- **Infrastructure & Cloud**
Azure, AWS, virtualization, operations and modernization
- **Data / Image Migration**
ETL, reconciliation, verification and repository support
- **ITSM & Production Support**
ServiceNow, incident/change, MIM and 24/7 operations
- **ECM / Content Services**
FileNet, CMOD, document conversion and records support

DIFFERENTIATORS

- **Outcome-Driven Leadership Model**
Active executive governance that eliminates administrative overhead and streamlines workflows to keep engineering delivery clear and focused.
- **Insulated Workforce Retention**
Proactive workforce stabilization models that guarantee 100% personnel retention and continuous milestone execution during high-stakes delivery windows.
- **AI-Accelerated Burnout Prevention**
We equip our bench with secure, automated LLM code parsing tools, replacing tedious manual data auditing to keep team morale high and eliminate resource strain.
- **Resilient Resource Cushioning**
Fully pre-funded corporate backing and robust liability shields that insulate our engineering bench from external agency resource droughts.

ENGAGEMENT LANES FOR PRIME CONTRACTORS

Subcontract SOW

Fixed outcomes, defined deliverables, reporting cadence and delivery ownership.

C2C / Resource Support

Pre-vetted technical, PMO, data, infrastructure and analyst resources.

Task-Order Surge

Rapid capacity to fill gaps during ramps, recoveries and option-year execution.

Fixed-Price Sprints

Scoped technical sprints for rapid discovery, recovery, audit and stabilization work.
